

*School Shree Nava Vijayee Mahendra Secondary School,
Bhalaya danda, Lahare Pauwa VDC*

Meeting with Guardians

Sunday 31/1/2010

Discussed contents:

- 1) Construction process: building is finished and other works will be done
- 2) Education Quality
 - a) Teachers from Kathmandu will be invited.
 - b) School teachers will be sent for training in Kathmandu.
 - c) School will invite volunteers (Italy, Germany, U.S.A.).
- 3) Guardians' Role (Value and importance)
 - a) Control of school (construction process control, cleaning control, discipline control).
 - b) Teachers control (presence and quality control, asking to their sons and daughters to report daily school activity).
 - c) Student control (checking daily homework and be severe, regular and proper attending requested).

In most european countries guardians take control of school activities urging teachers to do their best. Guardians speak a lot between them and complain when necessary. Guardians in Bhalaya danda can complain school going to the Head Master, or to the Resource Center Office in Neelkanta School in Betrawati, or directly to the Rasuwa District Office in Dhunce.

The first education, students get in their house.

When students reach school, parents must follow them in the process of their education. Guardians are the most important control for the quality of education.

We really hope that you help us to make a better school for the children in the area. Their future depends on their education.
